(1) Civil Rights have been denied to me (2) I have been subject to abuse  
(3) - have been harassed (4) I have been denied privileges specified  
in the Benton County anti-racism Handbook  
• Denied Medical Services • Denied professional/attorney assistance  
• Subject to false accusations/blackmail

to be ignored - witnessed abuse of crippled elderly  
pregnant woman among others who were denied basic services  
on multiple occasions

background - I was a city commissioner. Notes recorded  
and transcribed, more info can be found on my personal  
website at [spencerbarrett.com](http://spencerbarrett.com), I was falsely charged  
with the 3rd and have more than enough for mounting  
evidence to support my case but I am being denied  
basic services 'Rights', held captive and treated as  
guilty until proven innocent. Not the other way around

based on Oregon's History, Revised Statutes, Pacism Sexism  
and implicit Bias currently allowed in our 'Justice'  
System and what I have witnessed w/ my own person.

Swimming sea  
not even teeth, claws, or thorns will separate me  
from eternity, beyond life I shall find my love my life  
yet a part of me not even death could take us part.  
in the hills and leaves like a poet, a refugee, a lover  
A lover, my love I shall be with the greatest  
caught in the outer entanglement of life and death  
(And the world with a new joy)

I said to a girl friend her name and some other  
waited time, at a boy name in another  
you give my heart and make my feet.

My friends & family my best friend  
I hope you will think it right to stay to see me  
with your heart strong  
and still forget to breathe and at night as I lie  
down a heavy, downy sleep might leave

8/21 Monday. I was in the morning at a meeting, the subject was the same as that of the previous day. The speaker was the same. He said that those great mine, after a long period of time, had been found to be impure. This was a very important discovery. I can feel the weight of this discovery considerably in his presence.

1. The first thing I noticed when I stepped  
 out of the car was the smell of fresh  
 air. It was a relief after being stuck in traffic  
 for so long. The sun was shining brightly, and  
 the birds were singing. It felt like a new  
 beginning. I took a deep breath and smiled.  
 The world was waiting for me.

1. The first part of the paper is devoted to a discussion of the general principles of the theory of the structure of the human brain. It is shown that the brain is a complex organ, the structure of which is determined by the environment and the heredity. The paper then goes on to discuss the various parts of the brain and their functions.

1. The main body of the text is written in a cursive script, likely from the 18th or 19th century. It appears to be a letter or a formal document. The text is somewhat faded and difficult to read in many places.

2. The text is written on a piece of paper that has been folded or crumpled, with visible creases and wrinkles.

Baby, you are everything to me. My family, you and Sta, give my life so much purpose, inspiration and motivation.

Our time here is so important and I don't ever want to take the time I get to spend with you for granted... with you I feel the universe is a truly blessed and beautiful caretaker. I feel so loved that I don't know where I've got to go, the fact I am amazed everyday by your existence the crazy and beautiful things that happen and aligned for us to meet at just the right

time to be, even now. This is a true test

new road, the one we are on, that we really are a team because I am going to take care of you and god in our new home. Everything is going to come into place, we are always taken care of.

Forever and ever yours,

1. The first part of the paper discusses the importance of understanding the underlying mechanisms of the system. This is crucial for developing effective interventions and policies.

2. The second part of the paper focuses on the role of the system in the overall process. It highlights the need for a comprehensive understanding of the system's components and their interactions.

3. The third part of the paper addresses the challenges associated with the system. These challenges include the complexity of the system, the lack of data, and the need for interdisciplinary collaboration.

4. The fourth part of the paper presents the proposed solution. This solution involves the development of a new framework that integrates the different components of the system.

5. The fifth part of the paper discusses the implications of the proposed solution. It shows how this solution can be used to improve the system's performance and to address the challenges identified in the previous part.

6. The sixth part of the paper concludes the paper by summarizing the main findings and by highlighting the need for further research.

The first part of the paper discusses the importance of understanding the underlying mechanisms of the system being studied. This involves identifying the key variables and their interactions, which can often be complex and non-linear. By developing a clear conceptual model, researchers can better understand the system's behavior and predict its response under different conditions.

In the second part, we present our experimental results, which show that the proposed method significantly improves the performance of the system compared to existing approaches. These findings are supported by statistical analysis and visual representations of the data, demonstrating the effectiveness of the new technique.

Finally, we conclude by summarizing the main contributions of the work and discussing potential future research directions. It is important to continue exploring the limitations of the current study and to develop more robust methods that can handle increasingly complex and dynamic environments.

**Facts found  
and Relevant  
Evidence**

- Barrett did mix water, fruit, and possibly other things together in an effort to make something in his cell.  
Barrett did have multiple leftover food and garbage items found in his cell from past meal services.

(Barrett's fault)

**Summary of  
Findings and  
sanctions  
imposed**

Regardless to whether Barrett was trying to make glue or trying to make perfume, he clearly possessed and manufactured contraband in the jail. Barrett's cell was also found to be insanitary with various garbage and food items laying around. Barrett is found to be in violation of both of the following rule violations -  
Major #8 - Possession or Manufacturing of dangerous contraband - in rule #10  
Minor #1 - Failure to maintain sanitation practices (gives 60 S + 147 A 72 from 72)

Sanction imposed: Barrett will be given 72 hours lock-down without dayroom privileges. Barrett will be given credit for time served on lock-down since 8/4/17. Barrett is eligible for dayroom starting on 8/6/17. Barrett will be placed on a 30 day facility probation. During that time if Barrett receives any further disciplinary sanctions a additional 48 hours lock-down will be imposed.

A copy of this disciplinary adjudication will be forwarded to the classification committee.

Inmate Statement in regards to allegations: Barrett stated that he did not think his cell was dirty and that he would have cleaned it better had he known he was going on transports. Barrett stated that he knew how to make beer and wine and that he did not have the means to do so while in jail. Barrett stated that the concoction Deputy Johnson found in the cup was water, jelly, and possibly orange peels. Barrett stated that he mixed those items together in order to make a good smelling fragrance to leave by his toilet. Barrett stated that he was not aware that it was against jail rules for him to mix things together in a cup. Barrett stated that he felt jail deputies were ~~impugning him out~~ and picking on him by charging him with rule violations and taking away his dayroom time.

**2015 ORS 161.015<sup>1</sup>****General definitions**

As used in chapter 743, Oregon Laws 1971, and ORS 161.015 (Discharging weapon or throwing objects at trains), unless the context requires otherwise:

- (1) "Dangerous weapon" means any weapon, device, instrument, material or substance which under the circumstances in which it is used, attempted to be used or threatened to be used, is readily capable of causing death or serious physical injury.
- (2) "Deadly weapon" means any instrument, article or substance specifically designed for and presently capable of causing death or serious physical injury.
- (3) "Deadly physical force" means physical force that under the circumstances in which it is used is readily capable of causing death or serious physical injury.
- (4) "Peace officer" means:
  - (a) A member of the Oregon State Police;
  - (b) A sheriff, constable, marshal, municipal police officer or reserve officer as defined in ORS 133.005 (Definitions for ORS 133.005 to 133.400 and 133.410 to 133.450), or a police officer commissioned by a university under ORS 352.121 (University police departments and officers) or 353.25 (Creation of police department and commission of police officers);
  - (c) An investigator of the Criminal Justice Division of the Department of Justice or investigator of a district attorney's office;
  - (d) A humane special agent as defined in ORS 161A.346 (Humane special agents to enforce animal welfare laws under direction of law enforcement agency);
  - (e) A regulatory specialist exercising authority described in ORS 471.775 (Service of subpoenas) (2);
  - (f) An authorized tribal police officer as defined in ORS 181A.680 (Definitions for ORS 181A.680 to 181A.892); and
  - (g) Any other person designated by law as a peace officer.
- (5) "Person" means a human being and, where appropriate, a public or private corporation, an unincorporated association, a partnership, a government or a governmental instrumentality.
- (6) "Physical force" includes, but is not limited to, the use of an electrical stun gun, tear gas or mace.
- (7) "Physical injury" means impairment of physical condition or substantial pain.
- (8) "Serious physical injury" means physical injury which creates a substantial risk of death or which causes serious and protracted disfigurement, protracted impairment of health or protracted loss or impairment of the function of any bodily organ.
- (9) "Possess" means to have physical possession or otherwise to exercise dominion or control over property.
- (10) "Public place" means a place to which the general public has access and includes, but is not limited to, hallways, lobbies and other parts of apartment houses and hotels not constituting rooms or apartments designed for actual residence, and highways, streets, schools, places of amusement, parks, playgrounds and premises used in connection with public passenger transportation. Account's representation of Project is double and more than twice as big as any other model (441 words) in the corpus (10.0% of the total corpus). The reason for this is either its quality for writing (4.5) or complexity (10.4) or both. This is also the only account that is longer than the average (10.0 words).

1. The first step in the process of developing a new product is to identify a market need. This is often done through market research, which can involve surveys, focus groups, and other methods of gathering information about consumer preferences and behaviors.

It is important to remember that the newspaper did not claim to have an exclusive right to publish the information concerning the assassination. The word "exclusive" would not be guilty of murder by the press, and is not, in fact, relevant to the case. The word "exclusive" is the opposite of "exclusive". Information was intentionally withheld from close family members, concerning the details of a Family member's death

*Example: Intendant DPM is a family member - the collected fabricating & altering the medical records extended from his status and may constitute a larger search*

**Reasons to Believe**

**Time of death -**

*possessive estimates affecting state of health to just a few days later being suddenly passed and observed without consent or notifying family members*

**Lack of Will -**

**Lack of Painful Process**

*the only ethical argument for euthanasia is consequences of violent trauma and time*

**Amount of Money left in her name**

*recommended to secure a transitional community trust status after investigation reveals there are sufficient funds to survive*

**Lack of Communication to family members about the current situation**

*interacted, communicating domestic problem management skills*

**Date of funeral - to keep secret from family member?**

Colleen Barrett, did you or did you not say these words on the day of your "first attack"  
"They're going to get rid of me like they got rid of Granny?"

Dad, I don't need your money, I just need your support

I told you my plans when I arrived, they haven't changed. But

To finish my Canadian Documentary just about the concept but the whole impact and it's outcome completely. A sense of a Canadian culture, through the lens of my camera, I have witnessed, a real experience, one that cannot be denied. Can you, see? CCQ can't receive a grant or scholarship for my efforts unless this is without a doubt.

It takes a lot of effort to finish a documentary and I have recently felt completely overwhelmed. After I have almost finished it, my laptop screen breaks, 1/2 of my camera lens malfunctioned and I get fired from my photography job.

It does not seem like you think what I do is important. And I know it's hard to understand, I am getting better at articulating my vision so that my work, my skills, my passion are not being missed.

I don't need a loan, I don't need your money. I'm sorry for asking. I just want your real emotional support.

I really enjoy what I do it is a real job, and it's becoming more and more defined. With your help I will transform the world.

I know I could do a lot more with some family support.

I sometimes think no one hears what I am saying, I know I am not the best at 'getting to the point' in a short simple succinct manner.

Spencer Joseph Barrett,

I promise that I will truly love you forever. You are sweet, intelligent, creative, open, romantic and overall the most beautiful union I could possibly imagine. With you, I feel like anything is possible, you make me so excited for life. This friendship, this soulful relationship we have is the most important thing to me. You are the most important thing in my life and your thoughts and feelings come first. I love you with every ounce of my soul and body and I will never leave you. I could never part from you my love. I wrote a little poem that in a small way expresses an indescribably amazing feeling I get from making love with you. I guess you could say it's my first poem about the orgasms you give me 😊 Baby, you are magic.

Everything feels electric.

Soft touch,

Even the sheets and covers.

Power so intense we can hardly stand it.

Breathe my air into you.

Open palms cupping curves,

Caressing locks of hair.

You pull me back into you.

I don't want this to end.

Back in and out.

Melting body, merging gaze.

The sky trembles in ecstasy

and we create lightning.
